## Question 1

Correct

Mark 1.00 out of 1.00

**Problem Statement**

Given an array of 1s and 0s this has all 1s first followed by all 0s. Aim is to find the number of 0s. Write a program using Divide and Conquer to Count the number of zeroes in the given array.

Input Format

First Line Contains Integer m – Size of array

Next m lines Contains m numbers – Elements of an array

Output Format

First Line Contains Integer – Number of zeroes present in the given array.

**Answer:** (penalty regime: 0 %)

```

1  #include<stdio.h>
2  int zeroCount(int arr[],int m){
3      int low=0;
4      int high=m-1;
5      while(low<high){
6          int mid=(high+low)/2;
7          if(arr[mid]==0 && arr[mid-1]==1)
8              return m-mid;
9          else if(arr[mid]==0 && arr[mid-1]==0){
10             high=mid-1;
11             if(low==high)
12                 return m;
13         }
14         else if(arr[mid]==1 && arr[mid+1]==1){
15             low=mid+1;
16             if(low==high)
17                 return 0;
18         }
19         else if(arr[mid]==1 && arr[mid+1]==0)
20             return m-mid-1;
21     }
22     return 0;
23 }
24 int main(){
25     int arr[20],m;
26     scanf("%d",&m);
27     for(int i=0;i<m;i++)
28         scanf("%d",&arr[i]);
29     printf("%d",zeroCount(arr,m));
30     return 0;
31 }
32

```

	Input	Expected	Got	
✓	5 1 1 1 0 0	2	2	✓

	Input	Expected	Got	
✓	10 1 1 1 1 1 1 1 1 1 1 1 1 1	0	0	✓
✓	8 0 0 0 0 0 0 0 0 0	8	8	✓
✓	17 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 0 0	2	2	✓

Passed all tests! ✓

Correct

Marks for this submission: 1.00/1.00.
